grta.ai

BRAND GUIDELINES · V1 · OCTOBER 2026

People move work forward.

Nordic Futurism: warm people, luminous threads.

The idea

GRTA is about people finding each other. The brand keeps people and relationships in front, and shows the technology only as the connections between them.

Warm people

Tactile, calm, real. Natural materials, daylight, generous space. The first thing you notice is always a person.

Luminous threads

Our futurism is quiet: fine fjord-blue lines and nodes that link people. They are how we draw Collective Intelligence.

Nordic clarity

Few colours, short sentences, lots of white space. Nothing shouts. Trust comes from calm.

BRAND ATTRIBUTES

Human • Connected • Calm • Clear • Quietly ahead

AI + BI + CI = DI

Artificial Intelligence and Business Intelligence are only half the picture. Add the **Collective Intelligence** of your people and you get **Decision Intelligence**: better decisions, made faster, by the right people.

The GR/TA mark

Four letters, two by two, on one block. A redraw of the original GRTA mark: geometric letters on an even grid, so it stays crisp from a 1024 px app icon down to a 32 px favicon.

Primary: Ember letters on an Ink block. Use wherever possible.

Lockup: mark + “grta.ai” for headers and documents.

Mono: one colour on photos, partner materials and embossing.

Living mark: a thread of light traces the gutters between the letters. Loader and hero intro only.

Clear space: at least one letter cell (a third of the mark) on every side.

Minimum size: 24 px on screen, 8 mm in print. Below that, use the favicon render.

Variants & lockups

PRIMARY

FOREST

INK, NO BLOCK

WHITE, NO BLOCK

LOCKUP · PRIMARY

LOCKUP · ON FOREST

✓ Keep the block square and the letters ember or one solid colour

✓ Place on Birch, Snow, Forest or Ink

✕ Recolour individual letters, add gradients, shadows or outlines

✕ Rotate, stretch, or rebuild the mark in a typeface

Colour

A warm paper base, forest green for the brand, and ember used like a spice: the logo letters plus at most one accent per screen.

Birch
#F6F1E8
Page background

Snow
#FFFDF9
Cards, raised surfaces

Ink
#15201B
Text, logo block

Forest
#1F3D33
Primary brand, buttons

Moss
#6F8C6A
Secondary, icons, tags

Ember
#E8551E
Logo letters, rare accent

Fjord
#9DBCCB
Threads, data, glow

Clay
#D8B79B
Illustration warmth

Stone
#5E5E57
Secondary text

Line
#E4DCCD
Borders, dividers

PROPORTION ON A TYPICAL PAGE · EMBER ≤ 5%

Light & Nordic night

Every colour on the site is a semantic token with a light and a dark value. All text pairs pass WCAG AA, checked by script on every build.

LIGHT

Projects like this need change management.

You haven't asked for any. Add it to the brief?

Add change management GAP DETECTED

Typography

DISPLAY

Schibsted Grotesk

Made for a Norwegian newspaper group. Headlines, numbers, the wordmark.

BODY

Inter

Everything people read for longer than a line.

DATA

Geist Mono

Labels, scores, coverage values. The machine's quiet voice.

DISPLAY	**People move work forward.**	88px max · 800 · 1.0 · shown smaller
H1	**The right people, at the right time.**	64px max · 700 · 1.05 · shown smaller
H2	**From problem to plan, together.**	44px max · 700 · 1.1 · shown smaller
H3	**Gap detection taps you on the shoulder.**	24px max · 650 · 1.25
LEAD	GRTA helps HR and project teams bring the right people together around a real problem.	20px max · 400 · 1.55
BODY	Write a messy paragraph about what you need. GRTA turns it into a clear brief, spots what is missing, and suggests people who can help. You decide.	16px max · 400 · 1.6
LABEL	COVERAGE · 0.92	12px max · 500 · 1.4

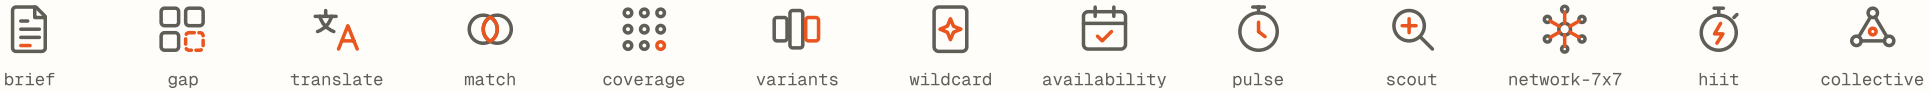

Icons

24 px grid, 1.5 px stroke, round ends. One optional ember stroke per icon carries the meaning.

Motifs

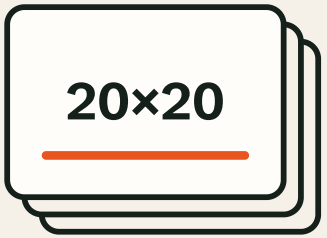

Threads

The constellation pattern. Behind heroes and dark sections, faded at the edges. Never behind body text.

Coverage map

Strong, adequate, gap: moss, fjord, ember. The visual language of team quality across the site and product.

20×20 stack

Stands for the HIIT Engine's 20 slides × 20 seconds format wherever presentations appear.

Illustration: stop-motion clay

HOME HERO · THE CAST TOGETHER

Handmade plasticine characters with big expressive eyes, sculpted hair and knitted clothes, in cozy sunlit Scandinavian studios. Like a still from a stop-motion film. Very faint threads of light hint at what GRTA does.

THE CAST

Ingrid, HR lead · **Kofi**, project lead

Mei, data scientist · **Lars**, the wildcard

Amara, student · **Sofia**, 7×7 guide

✓ Fingerprints, yarn, golden light	✕ Smooth realistic 3D, gloss
✓ Warm smiles, people first	✕ Robots, brains, neon

Voice & first components

Human: “Find the people who can help.” Not “Leverage human capital.”

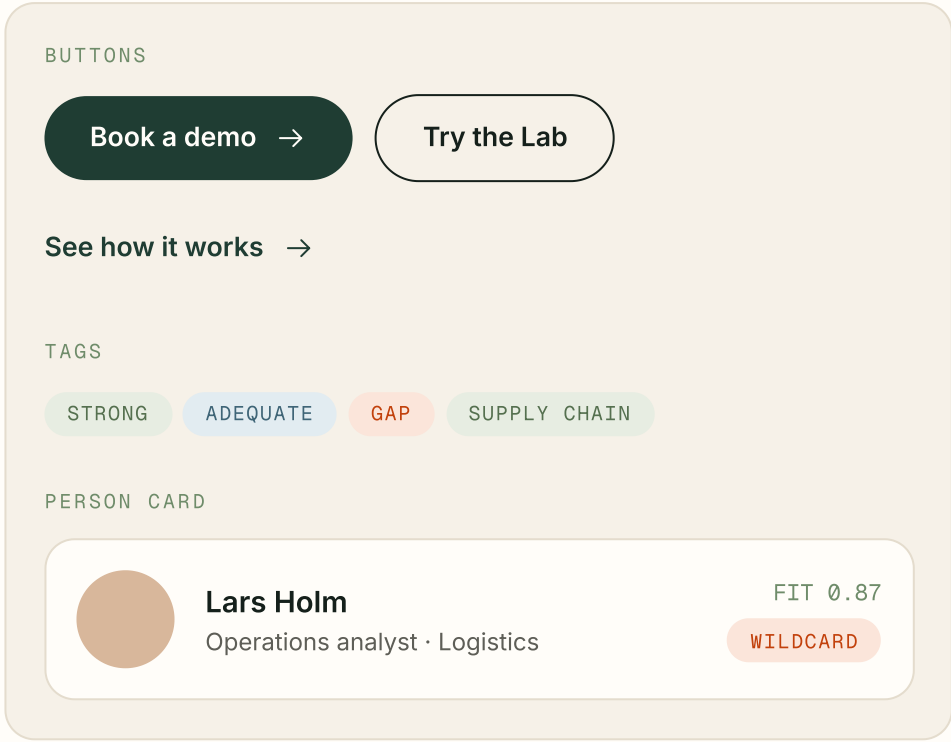

Clear: one idea per sentence. No em dashes.

Calm: confident, never hype. No exclamation marks.

Honest about AI: “GRTA suggests. You decide.”

Concrete: a real example beats an adjective.

“This one may look unusual. Here's why we think Lars could help.”

Be GRTA together.

AI connects data. GRTA connects people.
